PROJECT MANAGEMENT UPDATE

Safety
- This week’s safety talk was “Fire extinguisher ABC’s” knowing what type of FE you need on site and in what locations is very important.

Schedule
- The project is on schedule.

Other Progress
- Materials are being procured for the upcoming work.
- Interior non-loadbearing masonry walls are going up in locker room
- Permanent power is scheduled for second week of October.
- DTE gas is scheduled to be completed in October
