WORK IN PROGRESS

This Week
- Finishing footings in unit B
- Bring Masonry to precast height in C wing
- Working with Consumers Energy to get temporary power to site.

Next Week
- Continue with foundations.
- Continue with underground storm.
- Continue to install electrical in walls as masonry goes up.

PROJECT MANAGEMENT UPDATE

Safety
- This week’s safety talk was “Lifting the easy way.” It is important to always make sure you are lifting with your legs not your back. Use a buddy to help! Shortcuts lead to accidents.

Schedule
- The project is on schedule.

Other Progress
- Materials are being procured for the upcoming work.
- Working with Consumers Energy and DTE for permanent utilities.
