

Web Accessibility Statement

Sparta Area Schools recognizes the importance of ensuring our website is accessible to those with disabilities. We are committed to making our information accessible to visitors with disabilities and are actively working to increase the accessibility and usability of our website and in doing so adhere to many of the available standards and guidelines.

This website endeavors to conform to [Web Content Accessibility Guidelines 2.0](#).

These guidelines explain how to make web content more accessible and the District is working to educate our staff so that the content they may post on their classroom websites will be compliant with the guidelines and be accessible to all visitors.

This site has been built using code compliant with W3C standards for HTML and CSS. The site displays correctly in current browsers and using standards compliant HTML/CSS code means any future browsers will also display it correctly.

Sparta Area Schools strives to adhere to the accepted guidelines and standards for accessibility and usability as comprehensively as possible on this website. We are currently using Monsido and exploring compliance service opportunities that will scan our website and identify non-compliant elements or documents that need to be addressed.

Portable Document Format

Some documents on the Sparta Area Schools website are produced in portable document format (PDF). In order to improve viewing these files, please download the latest version of [Adobe Reader](#), which is available for free at the Adobe web site. Alternative accessible formats also are provided, where possible, most commonly through a text or an HTML file.

We are continually seeking solutions that will bring all areas of the site up to the same level of overall web accessibility. In the meantime should you experience any difficulty in accessing the Sparta Area Schools website, please don't hesitate to contact us at <http://www.spartaschools.org/about/contact-us/> or 616-887-8253.
